

SMS and GPRS commands for Queclink GPS Trackers

Open configurator.

Example:

We need to send SMS command to set SIM card settings:

Add setting you want and copy message from configurator.

Result: `AT+GTBSI=gb100,omnitel,omni,omni,,,,FFFF$`

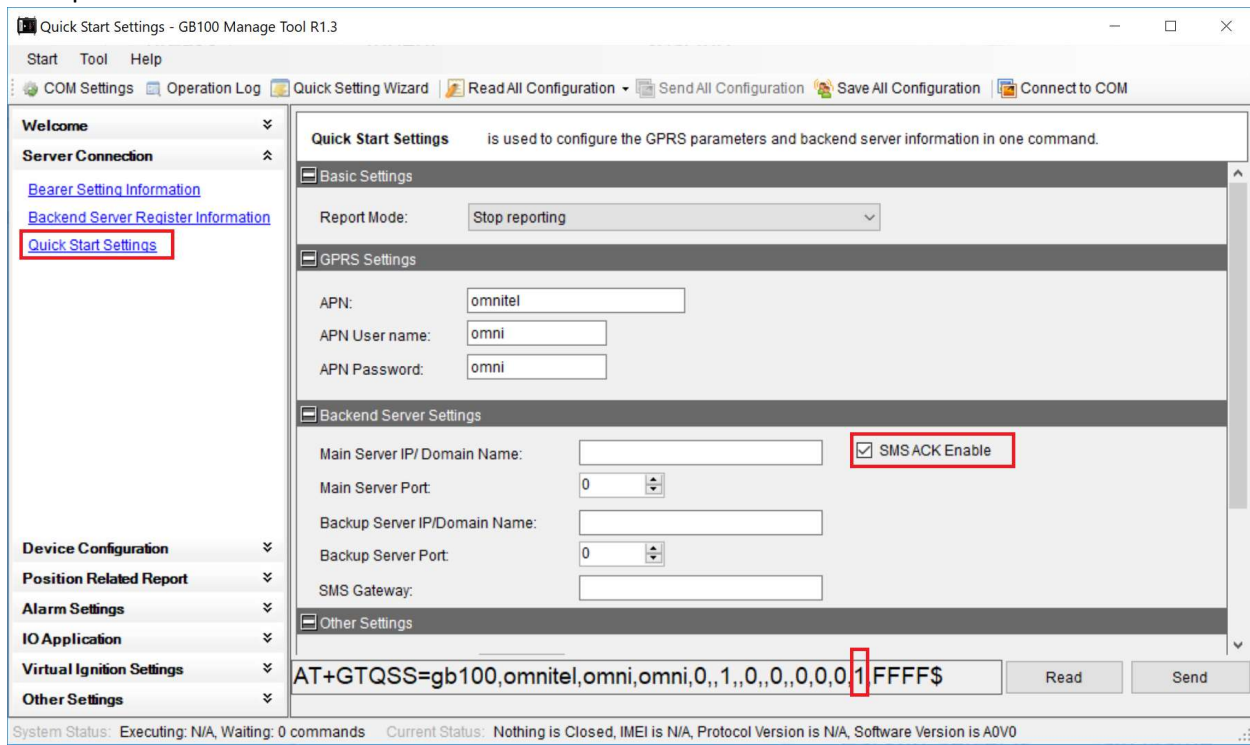

This command can be send to device by SMS.

Other parameters can be configured same way by SMS or GPRS.

Change 1 parameter

If you like to change only 1 parameter.

Example: enable SMS ACK

Copy the command: AT+GTQSS=gb100,omnitel,omni,omni,0,,1,,0,,0,0,0,1,FFFF\$

Delete other parameters between commas.

Results: AT+GTQSS=gb100,,,,,,,,,,,,,1,FFFF\$
